

Footpath No.7 – Picketts Hill Road to Cradle Lane (BOAT 36)

Note: This path has stiles:

On Picketts Hill Road between Brockford Bridge and the water works at a stile on a bank (Pic 1) on the right-hand of the road there is a finger post pointing across a field (Pic 2).

At the time of writing there was no discernible path across the field, and the stile at the other side is not visible. One finds it (Pic 3) by cutting diagonally across the field, though not precisely in the direction the finger post is pointing.

At the other end ('Cradle Lane') there is no finger on the finger post.
