

Footpath No.20 – Hammer Lane to Whitmore Vale Road

A finger post on Hammer Lane (Pic 1) points across the road to a small gate into *Cobwebs* garden (Pic 2). The gate is no longer in use (Aug 2020) and walkers must use *Cobwebs* drive to access the path which runs between it and *St Clair*, the neighbouring property. (Pic 3)

The path is narrow, running between fences, and almost blocked at one point by a telephone pole. (Pic 4)

It continues downhill, somewhat steep and uneven in places, with a paling fence on the right-hand side (Pics 5 & 6) until near the bottom when it squeezes through (Pic 7) to end at Whitmore Vale Road on the drive of *Walnut Well*. There is a guide post pointing back (Pic 8, reverse direction).

Note: Grayshott FP10 (see Headley FP19) offers a far easier route here from Hammer Lane.
